

Patient-Driven Payment Model (PDPM): At-a-Glance

The **proposed** PDPM establishes a rate on the 5-day MDS for the entire stay by combining five different case-mix components (PT, OT, SLP, Nursing, and Non-Therapy Ancillary) with the non-case-mix component. The rate may be changed during the Medicare Part A stay by completing the Interim Payment Assessment (IPA) for substantial changes.

Use the following at-a-glance tools to identify the case-mix group for each component and improve your understanding of the **proposed** Patient-Driven Payment Model.
